Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

\[ \sigma \text{ vs. } E \text{ for } ^{59}\text{Co}(n,\text{tot.}) \]
Absolute scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix
Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

\( \Delta \sigma / \sigma \) vs. E for \(^{59}\text{Co}(n,p)\)

Abscissa scales are energy (eV).
Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

Abscissa scales are energy (eV).
