

Ordinate scales are % relative standard deviation and nu-bar.

Abscissa scales are energy (eV).

Correlation Matrix

Ordinate scale is %
relative standard deviation.

Abscissa scales are energy (eV).

$\Delta v/v$ vs. E for ^{244}Pu (total v)

Correlation Matrix

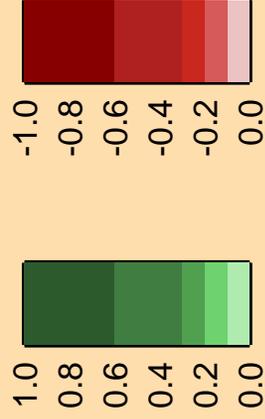

Ordinate scale is %
relative standard deviation.

Abscissa scales are energy (eV).

Correlation Matrix

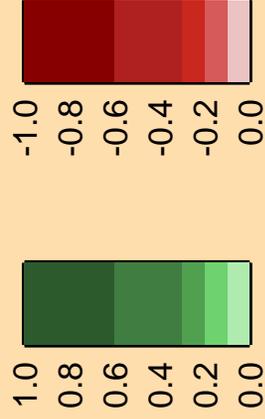

Ordinate scales are % relative standard deviation and nu-bar.

Abscissa scales are energy (eV).

Correlation Matrix

$\Delta v/v$ vs. E for ^{244}Pu (prompt ν)

Ordinate scales are % relative standard deviation and nu-bar.

Abscissa scales are energy (eV).

ν vs. E for ^{244}Pu (prompt ν)

Correlation Matrix
