Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

σ vs. E for $^{104}$Ru(n,el.)

$\Delta\sigma/\sigma$ vs. E for $^{104}$Ru(n,el.)
Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

$\Delta \sigma/\sigma$ vs. E for $^{104}$Ru(n,inel.)

$\sigma$ vs. E for $^{104}$Ru(n,inel.)

Abscissa scales are energy (eV).
Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

σ vs. E for $^{104}$Ru(n,2n)

$\Delta\sigma/\sigma$ vs. E for $^{104}$Ru(n,2n)
Ordinate scales are % relative standard deviation and barns.
Abscissa scales are energy (eV).

Correlation Matrix

$\Delta \sigma / \sigma$ vs. E for $^{104}$Ru(n,γ)

σ vs. E for $^{104}$Ru(n,γ)
